

IT, Gaming Resource and Training Centre

Adapt-IT is opening a new Information Technology, Gaming resource and Training centre in Tewkesbury, Gloucestershire, 5 minutes from J9 of the M5.

It has been designed to provide an easily accessible and inclusive environment where people with differing disabilities can try out the latest hardware and software. Being able to trial and understand which assistive technology is important to ensure available funds are used only on items that work.

The resource and Training centre setup with hardware and software solutions that enable access to Work, Education and Gaming.

With 7 dedicated stations to enable accessible gaming and IT demonstration we can cater for most accessibility requirements.

Accessibility

With all stations capable of being height and location adjustable to achieve the best custom fit and location for the user.

Hardware

All Stations are capable of being configured with differing configurations to enable trial of the latest assistive hardware.

Software

With our demonstration and trial IT suits being able to trial all the latest IT software for neurodiversity or physical disability support. Covering software such as Read and Write from Text Help, Inspiration 10 mind mapping, Nuance Dragon, and Dolphin Supernova. Trial Carer support packages such as Clicker and Widget to support rehabilitation, speech therapy and educational needs.

Mounting Solutions: Readapt Assessment Centre

Adapt IT is also a premium Rehadapt assessment centre enabling for the trial and setup of wheelchair, desk and floor mount systems for both IT and Gaming. This enables users to see how getting the correct positioning of equipment can better support accessibility.

Training

Our dedicated trainers can carry out 1-1 and group training on all the software and Hardware packages we provide.

We provide awareness and orientation training for managers, Carers, parents, and education establishments. Covering Assistive technology focussing IT, gaming and how to make it accessible.

Learn techniques for configuring Windows to ensure its secure and accessible.

Special Events

We can put on special events are you a youth group and want to learn about accessibility and how you would game or use IT with differing Disabilities we can do specialist events to showcase the capabilities and build awareness.

Ask us about other special event packages such as inclusive group gaming parties.
